

ASI Medical Waste Module: Manifests

Regulatory agencies require that healthcare organizations provide manifests as proof that they are properly disposing of medical waste. ASI's Medical Waste Module documents chain of custody to address this critical disposal requirement. HERE'S HOW:

The Pick Up

Upon servicing customer, a manifest is created by the ASI Medical Waste Module.

STEP
01

STEP
02

Assignment #1

Manifest is associated to the pickup vehicle, a.k.a. "Primary Transporter".

Assignment #2

If materials are delivered to a 2nd vendor for disposal, a "Secondary Transporter" is assigned.

STEP
03

STEP
04

The Drop-off

The manifest is complete upon delivery of materials to the waste treatment facility.

Proof of Delivery

The client receives the manifest via email and/or may access via a web link.
